

Just before your choice, we'd love for you to go on a spa journey with us, dedicated entirely to self-indulgence, aromas, textures, atmosphere, calmness and uncompromising quality.

Imagine a trip back in time to the ancient Roman period, where the opulence and hedonism of the Roman Empire is expressed in every part of the spa. A connection between body and mind in a delicate and precise mix with the world of music, which enhances and completes the experience of the visit.

We will tell you about inspiring, emotional and creative techniques drawn from the worlds of sculpting, pampering, beauty and care, with products with wonderful textures and fragrances, woven like the second thread throughout the length of our special treatments, 70-minute treatments inspired by the period.

In the spa, you will have at your disposal a pampering Jacuzzi in front of a breathtaking and magical view of the Sea of Galilee, an outdoor pool (in season), wet sauna, dry sauna, changing rooms, showers, soft robes and slippers, homemade refreshments and other treats.

In the spa treatments, the therapists use several elements, massage techniques, hot stone touches, high-quality and pampering shea butter, and put together the most pampering and high-quality treatment for you.

Now let's stop time, the journey has begun, silence phones and disconnect.

It's time to take a deep breath and surrender.

We take you to another place....
